---

## The Cyber landscape in Property insurance: Understanding the risks of Industry 4.0

16:05 - 16:25

The last four centuries has witnessed the emergence and evolution of new industries, from steam-based mechanical production to computer-based automation. The latest industrial revolution ('Industry 4.0') has seen the rise of Industrial Control Systems which connects manufacturing processes with the Internet of Things and subsequently blurring the lines between the physical and digital worlds. This session looks at the impact this evolution has had on traditional Property insurance:

- Background: How did we get here?
- Key 'Cyber' concepts in Property insurance: What is the risk?
- How is it covered?
- Latest developments

## Participants

**Francesca De Gregorio** - Underwriter, Swiss Re Corporate Solutions

---

## Understanding the Risks in Industrial Control Systems

16:25 - 17:05

## Participants

**Moderator: Anka Moraru** - Senior Manager, Cyber Security, PwC

**Panellist: Chris Getty** - Class Underwriter, Talbot Underwriting

**Panellist: Debbie Hobbs** - Practice Leader, Emergin Risk

**Panellist: Cyrus Delarami** - Head of Section, Cyber Standards & Support, Munich Re

---

## Chairman's Closing Remarks and End of Conference

17:05 - 17:15

---
